Paintballing

- Picture yourself behind enemy lines in the heart of the jungle. With stealth and speed, you advance over hazardous territory towards your target.
- Paintballing needs wits, courage, careful planning and dedicated teamwork. So let the battle begin!
- Paintball is particularly popular with groups of friends and corporate events.
- Overalls, goggles, and safety equipment is provided.
- You will be fully briefed and trained by paintball supervisors before battle commences.
- Half day activity
- Various game types will be played throughout the day
- Extra paintballs can be purchased at extra cost

Song Recording Studio

- Whether you fancy being Oasis, Michael Jackson or The Beatles on the Mic, there is no better way to start your weekend and get the whole party chatting and ready for the night ahead. There are so many classic tracks to choose from and there is nothing better than watching the people reach those high notes. The whole party can join in on the choruses.
- This is a fantastic party experience for all to share. Food and drink can also be taken in with the party, just don't spill it on the mixing desk! Everyone gets a CD to take home to play to family and friends or you can choose to have them sent to you the next day by first class post

Whats Included:

- 3 Hours of great fun
- Takes place in fantastic recording studios
- Over 10,000 backing tracks to chose from (including the latest top 40)
- Fully mixed CD to take home for everyone in the party
- Food and Drink can be taken with you (Bring your own beers!!)

Out Door Activities

Quad Bikes

- After an initial briefing by our fully qualified instructors you will ride our 125cc quad bikes on a varied course until you are fully confident.
- You are then given the chance to take the quads on a trek through water, trees, steep inclines and technical terrain.
- Each trek will consist of a minimum of 3 and a maximum of 5 bikes per instructor.

Hovercrafts

- Learn to control these large machines using a lot of leaning to slide around bends and race around our interesting course with tight bends and chicanes
- The delayed reactions keep you on your toes and make these machines unlike anything you have ever driven before.
- The competition is a timed lap round the course with penalty points for hitting the white poles.

Rage Buggies

- Fully automatic 614cc state of the art off road karts. These are equipped with a full suspension system and complete roll cage.
- Just like a car, both the brake and accelerator are operated by your right foot giving the kart excellent handling and control.
- Fast paced and exhilarating to drive, these are the ultimate in adrenaline-pumping off road entertainment.

Archery & Crossbow

- Here you get to try two different types of shooting activities for the price of one; a combined activity where you can try your hand at archery and then crossbows.
- On the archery, use our recurve bows to try your luck and see if you manage to hit the bull.
- The crossbows are slightly easier to aim and are more like a rifle to fire which makes it a little easier for beginners.

Powerturns

- These are two seated, twin engine, machines, which are steered by power switching to each rear wheel, making this a very exciting and testing drive!
- You can go it alone, or take a passenger with you.

4x4 Off Road Driving

- After receiving tuition from our highly experienced instructors, drive a 4x4 Off-Road vehicle through a testing course of steep slopes, water, banks and tight turns.
- Hit as few poles as possible and follow the instructions closely to achieve the highest score.

Micro Quads

- Fast paced and adrenaline-pumping, these micro quad bikes are very small quads - a 4 wheeled version of 'Mini Moto'.
- You will race around a track head to head against your friends at only a few inches from the ground. Not for the faint hearted!

Blindfold Driving

- Blindfold 4x4 driving is all about skill and not speed. The task is designed to test your faith in your fellow team mates and make it safely around our track.
- As a blindfolded driver you will be disorientated, as the navigator you will need to master the art of communication.
- Your final goal is to obtain points by not hitting any of the markers on the course.

Air Rifles

- Use a choice of air weapons to shoot at 'tin cans' and our range of metal animals, spinning targets and knockdowns.
- Points are awarded for each hit, with the best shooter achieving the highest score for the team.

SMS Pub Treasure Hunt

- The aim of the Pub SMS Treasure Hunt is simple - you and your team mates have to complete all six zones in a bid to be the quickest team to reveal the six digits Master Code. There is only one rule...you must take a photo in each pub of your team mates having a drink together! The rest is up to you!
- You will also have ten items to collect on your way around to earn Bonus Time
- Drinks are not included, these are bought by you on the day.

SMS Treasure Hunt

- Our SMS Treasure hunt is a fully interactive activity which uses the latest text messaging technology to manage everything for you - no more scoring of answers or arguing over who has won; the state-of-the-art mobile technology takes care of this so that you can concentrate on the most important thing - winning!
