## What Happens At Your Event?

On the day, the event will begin with a short introductory briefing from your activity host. They will explain how the experience will run before splitting everyone up into smaller teams. Then, it will be time to take on the cube!

During the event, you will be faced with a host of team-based and head-to-head challenges, with the latter giving each team the chance to earn extra fun money for their pot. Teams will also get some practice time before entering the “pressure zone”, where they must exercise caution and avoid mistakes and losing ‘lives’ as a result.

With around 14 tricky challenges to attempt, by the end of the activity, the team that has managed to work their way through each challenge and has racked up the highest score will be crowned the overall winning team of the day.
