What Happens At Your Event?

On the day of your event, the activity will kick off with a short briefing on how your day will run before everyone splits up into smaller teams. Then, the trading floor will open, giving each team a window of time to choose their investments.

During the event, the money each team has earned can be used to buy building materials to construct a makeshift tower. With each centimetre of the tower costing around £1000 to build, teams will need to choose their investments wisely to be in with a chance of earning more.

By the end of the event, the trading floor will have closed and each tower will be measured, with the winners being those that have managed to build the tallest in the room.
