Event Overview

Perfect for giving your team a chance to bring out their creative side, a Movie Madness experience gives your teammates the chance to plan, shoot and star in their very own production for the day! For this activity, everyone will split into smaller teams and work together to re-create some famous scenes from a Hollywood blockbuster film.

Throughout this activity, participants will need to show some creative flair whilst bringing out their teamwork and communication skills in order to successfully direct and shoot their scene in one take. With event staff and facilitators there to manage the event, they will be there to observe each team as well as judge the final productions.

What Happens At Your Event?

On the day of your event, your facilitators will begin with a short briefing on how the event will run before they split participants up into smaller teams. From here, each team will be assigned a set of scenes to film, as well as props and equipment which will be used to film and produce your scenes.

Then, each team will need to decide between themselves who will take on each role - assigning roles for the director, camera operators, props department, wardrobe, the star and the extras. Each team will also receive a kit filled with all the equipment necessary to create their scenes.

With only one take allowed for each scene, rewinding or re-doing shots will give teams a negative score, so participants will need to communicate and work together effectively for a chance to score the most points.

What's Included?

- ✓ Each team will receive a range of equipment to create their movie
- ✓ Assign roles to your team members
- ✓ Recreate scenes in your team, which will then be put together to produce an original version of a well-known movie
- ✓ Your event host will be observing teams throughout the event and will score each team at the end of the event!
- ✓ Full risk assessments & £5million public liability insurance
- ✓ Well-kept and maintained equipment
