## Event Overview

If you're looking to unleash your team's creative flair, then our Masterpiece Challenge is the perfect way to do just that. Not only will participants have the chance to bring out their artistic skills, but this activity also requires lots of teamwork and clear communication in order for teams to be successful.

For this experience, everyone will work in smaller teams to complete one section of a large painting. However, only a limited number of people from each team will get to see the full picture, meaning that they will have to relay what they see back to their team in order for them to paint accurately.

## What Happens At Your Event?

At the start of your event, the day will begin with a short briefing given by your facilitator on how everything will run. They will then split the room up into separate teams, assigning a section of the large painting to each.

With only a few members from each team allowed to see the full painting, it's up to them to communicate clearly and effectively to explain what they see so that their teammates can paint their section as accurately as they can. Painters will also need to bear in mind and discuss how each section is going to fit together.

At the end of the activity, all the sections from each team will be brought together in an attempt to re-create the full painting in its entirety. The question is - will you and your colleagues succeed?

## What's Included?

- ✓ Experienced event manager to host your event
- ✓ Split into teams - some of the team are shown the picture you need to re-create
- ✓ Each team is given a section to paint – however, as not all of the team get to see the picture so communication is key
- ✓ Each section must fit with each other to re-create the painting as a whole
- ✓ Once done, put the sections together to see your unique result
- ✓ Full risk assessments & £5million public liability insurance
