## BRIDGE BUILD

 20-500 People

 Nationwide

 Half Day

 Indoor

### Event Overview

Bring about lots of teamwork and collaboration on your next team away day with a fantastic Bridge Build experience. For this event, participants will split up into smaller teams to build a section of one long bridge, using equipment and tools provided on the day. For the duration of the event, those taking part will need to bring out their problem-solving and creative skills in order to build a solid structure that's strong enough to hold a remote-controlled car.

This activity encourages participants to communicate effectively and work together in order to achieve a common goal. If they are successful, everyone will feel a massive sense of achievement from taking part in this event.

**Free Venue Finding Service**  
Let us find the ideal venue to perfectly suit your activities & needs.

### Benefits Include...

-  Team Cohesion
-  Light-Hearted Competitiveness
-  Encouraging Creativity
-  Idea-Sharing
-  Working under Pressure
-  Sense of Achievement

## What Happens At Your Event?

On the day, the event will kick off with a short briefing from your activity hosts explaining how the day will run. Then, they will split everyone up into smaller teams before assigning each team a section of the bridge to build.

With tools and equipment needed to build your sections provided for you on the day, everyone will need to bring out their creative abilities and use great teamwork and communication in order to build a strong portion of the bridge. Participants will also need to figure out how the proceeding and following sections of the bridge will connect to theirs.

At the end of the activity, once each section of the bridge has been completed, the final test run will begin! For this, everyone will nominate a driver to test-drive a remote-controlled car from the start to the end of the bridge. If successful, participants will gain a massive sense of achievement from this experience.

## What's Included?

- ✓ Experienced event manager to host your event
- ✓ Split into teams to design, create and build a section of a bridge
- ✓ Once your section is built – you must connect it in with the other sections created by your colleagues!
- ✓ Once built – nominate a driver responsible for negotiating a radio-controlled car across the bridge and against the clock
- ✓ Full risk assessments & £5million public liability insurance
- ✓ Well-kept and maintained equipment
