What happens at your event?

Everyone will arrive at the venue before hearing a short introductory briefing from your activity host. They will explain how the day will run and split everyone up into small teams.

Each team will get to assign roles and responsibilities to each team member depending on their skill sets - For example, those that are more analytical may be assigned to navigational and supporting roles, whilst those with physical abilities may be assigned to the more intense challenges. However, it's up to you to decide!

By the end of the event, each team will have had the chance to take part in each challenge before reaching the peak of Mount Everest... and once you do, everyone will inevitably feel a huge sense of achievement from working together effectively to achieve a common goal.
