What happens at your event?

On the day, your event will begin with a short briefing from your activity host who will detail how the day will run. Then, after splitting into smaller teams, each will get to take part in the qualifying rounds before getting down to designing and building their soap box karts.

During the event, each team will get to procure parts for their karts through the qualifying rounds before putting them together to build the ultimate racer. Then, each team will get to take part in a series of “heats” and undergo an MOT check before taking to the final race.

At the end of the event, those that manage to pass the finish line first with their soap boxes intact will be crowned the overall winners.
