Find parts & tools across your real-world location using an interactive GPS powered map.

To retrieve an item, you must complete a photo/video challenge or a space themed trivia question.

Add the parts & tools you find to your collection.

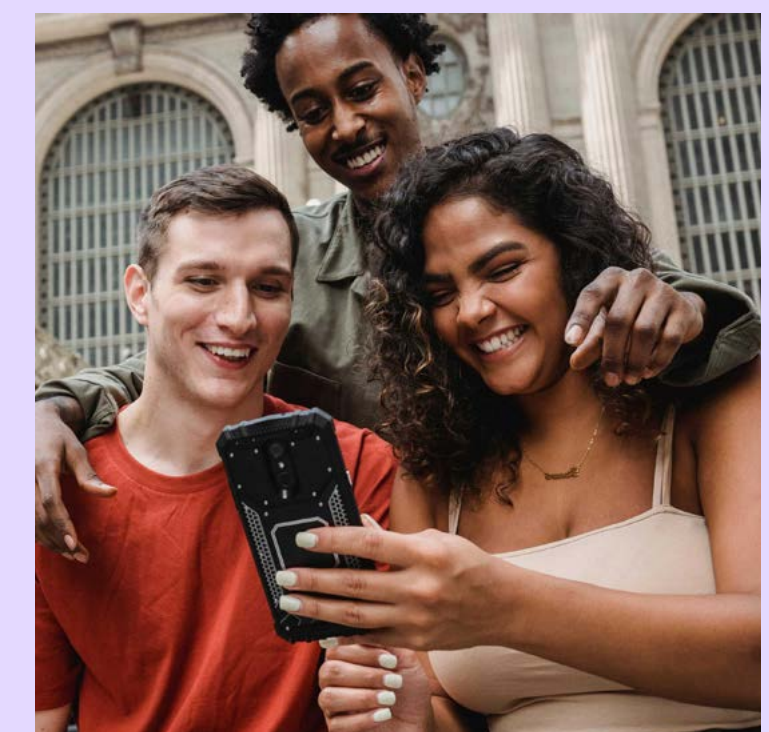

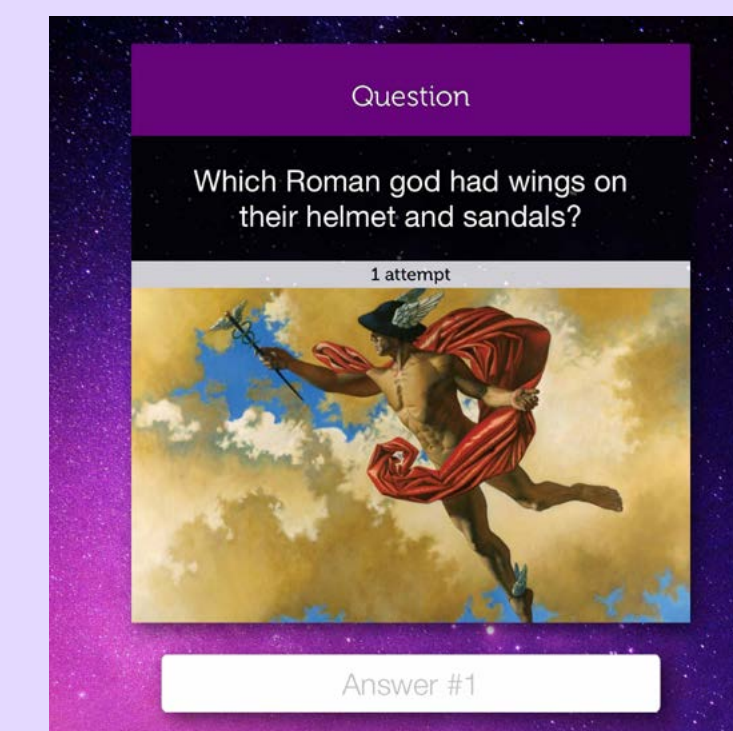

What happens at your event?

A remote event host will beam into a link via Zoom or another video conferencing platform to explain how the event will work including the plot and the rules. You'll split off into small teams and head outside around the city.

The app you'll use will be entirely on your phones, so make sure you have signal & battery! Follow the map and visit each hotspot where you'll unlock a photo, video, audio or question task to complete to earn vital 'Life Points'. Lose too many of these, and it's game-over. As long as you have enough 'Life Points' and manage to collect all the ship parts, you'll succeed!

The whole group will come back together and the host will wrap-up the event by announcing the winning team who gained most points.
