## What happens at your event?

Everyone should download the game app beforehand, ready to play on the day with no delays. The only other things you'll need are Teams/Zoom set up plus a good and stable internet connection.

On the day, participants should join together virtually. Once connected via Teams/Zoom, the live event host will explain how the game will work.

In a nutshell, each country will present it's own tasks to unlock using image recognition technology via an easy to download app. Your group will start in Argentina and complete a series of light-hearted challenges to earn Travel Credits. Your group will need to work together to earn enough Travel Credits to hop to the next destination and so on. You'll also get the chance to crack cryptic clues to guess your next destination and receive the ticket for your next journey for free.

You'll discover challenges that range from performing a fun Haka in New Zealand to exploring world wonders via Google Maps. All of these tasks will uncover answers and codes to help you explore ahead. Each group will need to keep track of time as your Travel Credits can also be earned from distance travelled. This means the team with the most Travel Credits at the end will be crowned winners.

When the game has finished, the event host will bring everyone back together in a virtual room and will reveal the winners (and losers) of the game!
