What happens at your event?

Download the game app prior to the event start time. The live event host will introduce the game to you and explain how the game app works, how the event is structured and all the rules to provide a fun, light-hearted and fair game.

The 1st round has each group working collectively, whether in person or virtual, through video conferencing calls. Player in each team must use their minds together to unravel an assortment of puzzling tasks and challenges.

The collective group will then be split into small teams of 3-6 people who will go off into their own virtual rooms to communicate and work together. Round 2 is made up of hands-on and creative photo and video tasks, for which each team member can pick between an 'Indoor Group', 'Indoor Solo', 'Outdoor Group' or 'Outdoor Solo' task depending on their location and company.

Each team player will earn points for their submission which will tally towards their team's overall score. The third and last round has players reforming for a 'Beat The Clock' sequence of questions, where they must answer as many trivia questions as they can before the timer hits zero! Photos taken during the activity will be shared live to the 'photo wall' within our app, allowing teams to inspire and entertain the rest of the group as they go.

The event will wrap up with the host announcing the winners!
