## What happens at your event?

The activity will begin with a short briefing on how the day will run before participants are split up into small teams. From there, you will have a limited amount of time to design and build your wacky wheels vehicle using the equipment provided for you. Once your cart is built, teams will take part in a series of challenges in order to gain sponsorships for their racing teams. After testing and (eventually) passing your vehicle's MOT, it'll be time to take to the tracks to battle it out in a series of races against the other teams!

With points awarded to the winners of each race, those with the highest points scored by the end of the activity will be crowned the winners of the day in a medals ceremony for first and second place.
